

Online or Face to Face Training

Coaching Skills for Educational Leaders

Coach Skills Training is designed to support Leaders to understand and have the flexibility and confidence to use coaching skills with their team and the wider school community.

Leaders will be equipped with the tools to enhance their own and their team's performance and wellbeing.

You will learn about the thinking and psychology that underpins coaching and also apply techniques practically through a range of practice coaching sessions working with real-life issues.

All attendees will be supported and challenged throughout.

Attendees will leave the course with a plethora of coaching ideas, approaches and techniques to use back at school with their teams.

Each attendee will receive a 1 hour – 1 to 1 (online) coaching session personalised to them and their professional or personal needs to ensure that they give time and care to their own development in order to be able to support and coach others.

Hayley Lamb (Positive Ewe) is a down to earth facilitator from a Coaching, Wellbeing, Educational Leadership & Training background. Sessions are enjoyable and engaging and ensure that coaching theory is mixed with plenty of practise.
